As far as I know, ^{RICHARD} ALLEN picked up the entire history when he interviewed Fitzpatrick. Quic and dirty, he was a Naval Officer who was court martialled early 90s. Although retained in the Navy, he ultimately was retired at a grade lower than he expected due to the court martial. He blames a JAG officer for all his woes and claims every flag officers who reviewed his case and took no action is part of a conspiracy, including RADM H.E. "RICK" GRANT (OJAG)

Over the years, he has corresponded with OJAG, NCIS, Congress and everyone else along the way to no avail. Many people in the front office have had contact with him to include I believe, DOROTHY (DIRECTOR BRANCH SECRETARY), S/A CHUCK BRIANT (?), S/A GERRY NIXE and myself. S/A NIXE finally agreed to OPEN the forgery case you are working. Again, the forgery is only one allegation of many Fitz has made against the Navy. However, if you can prove the forgery, it totally supports his 10 years worth of contentions and makes the NAV look really bad. The front office resurfaced this case to OJAG and they agreed to take another look at it since RADM GRANT has now departed. Fitzpatrick called the front office last week to seek a meeting with the Director. He was fended off but arrangements were made for CAPT AXA to talk to him next Monday. CAPT AXA is trying to get the latest on what you're doing so he's prepared for the discussion.

have some other e-mails I'll forward to you for background.
