**Subject: Formal criminal complaint regarding TREASON –
ATTAINDER - EXTORTION in Tennessee State: Jury Rigging!**

1. Tennessee State government functionaries forcibly resist state and federal Constitutions in favor of an installed, rival, and competing government not found in either state or federal Constitutions.

2. Tennessee State judges are handing out Grand Jury foremanships as political appointments. The “office” of Grand Jury foreman in Tennessee is a patronage position. Judges are found infecting Grand and Trial Juries everywhere. Monroe and Hamilton counties recently and abruptly ended the Pettway and Crabtree Dynasties twenty-years each. Citizens in the County of Bradley Tennessee presently suffer under the Newman Dynasty. The Snow Dynasty is enthroned in Roane County Tennessee over twenty-years. In McMinn County (Tennessee’s 10th Judicial District), Judges R. Steve Bebe, Carroll L. Ross and Amy Armstrong Reedy alternately pay tribute to Mr. Joel Riley as Grand Jury Foreman since 2005 (enclosures). Before Mr. Riley there was the McMinn County Redfern family Dynasty running nearly twenty-years.

3. Tennessee judges pick Grand Jury Foreman and jurors from “wherever they choose” using a process not found in Tennessee State law (**TREASON**). Tennessee State is in the routine practice of directly punishing its citizenry absent the presence of any constitutionally recognized jury (**ATTAINDER**). **TREASON** and **ATTAINDER** give birth to titanic **EXTORTION**.

4. Proof going to jury tampering at the trial level already reported is reported here again (enclosure).

5. Tennessee State and federal law enforcement officials know all this and do nothing! Astoundingly, law enforcement officers are found as participants in the criminal industry made known to you. The necessity regarding federal Grand Jury intervention in the exercise of *the POWER of PRESENTMENT* is urgent.

Born fighting,
