

Ms. Sheron Zendeau,

8-29-18

I am writing you this letter concerning another situation going on here at Northwest. I have been having issues with another Co and I have filed grievances on this Co and I've talked to the warden, the unit manager and multiple sergeants about this Co. Her name is Co Maggie Cunningham. Well on 8-26-18 they came and performed a search on my cell. My cellmate was holding a cell phone that belonged to a gang affiliation. My cellmate is flatterin' out around September 21st 2018 so he did not care to get a write-up I'm not flatterin' for awhile and I am trying to stay away from write-ups. When they find a cell phone in a cell they are supposed to write both inmates up, but they lied in retaliation for my grievance and wrote me up and lied in the write up. The write-up states that a "Black Verizon Moto cell phone came from my Rectum." That is exactly what the write-up says. Co Bryson got this cell phone from under my cellmates mattress. You can google or look up on how big a Verizon Moto cell phone is they are definitely not small. They are 4 to 5 inches tall and probably about 3 inches wide. I don't know anyone who can put this kind of phone in ~~the~~ their rectum, but even if someone did it should do some damage to someone's rectum. Since this happened I have asked multiple Cos, sergeants and medical to have a rectum exam or a rape kit done
