
In 2016 Raphael Cruz stating that “If Obama can do it, so can I” knowing that he is not an Article II “Natural Born Citizen” of the United States, along with Marco Rubio and Piyash Jindal attempted to usurp the Presidency for the third time in U.S. History. Barack Obama was this nation’s second putative “President”. Chester Arthur was the nation’s first of two “Imposters in the Oval Office”. See my book of the same name, iUniverse Publishing ©2017.

Barack Obama became the second usurper in 2008 when he entered into the office of the Presidency fraudulently, swearing a false oath.

Now, the 2020 election cycle has started and there are again ineligible candidates attempting to usurp the Presidency. Two that come to mind are Tulsi Gabbard and the other is Kamala Harris. As I did with Obama, McCain, Cruz, Rubio and Jindal, I will again challenge their bona-fides with my State’s Board of Elections in New York.

It is clear that there is now a clearly delineated pattern of attempted usurpations of our nation’s highest office by people with dual alliances and citizenship. This must not be allowed to continue. Given the current state of affairs in the nation, “We the People” have a sacred duty to observe and protect our freedoms and liberties by adhering to the U.S. Constitution to the letter.
