A few of the irregularities, otherwise known as fraud indicators, found in the 2020 election.

1. Vote counting in six battle ground states unexplainably stopped when Trump was clearly winning on election night. *“In an unprecedented move, several Democrat-controlled cities in key swing states..... abruptly stopped counting votes in the middle of Election Night, causing mass confusion and frustration. The decision to stop counting votes on Election Night— [has] never happened before in a U.S. presidential race—.”*

2. Hundreds of thousands of ballots arriving in the dead of night after counting was stopped. Trump, up in Pennsylvania by almost 800,000 votes election night, ends up losing that lead three days later, with ballots counted after election day and statistically impossible vote tallies by Dominion tabulation machines with Smartcheck software. *“In both Michigan and Wisconsin, vote dumps early Wednesday morning showed 100 percent of the votes going for Biden and zero percent—that’s zero, so not even one vote—for Trump. In Michigan, Biden somehow got 138,339 votes and Trump got none, zero, in an overnight vote-dump.”*

3. ‘The Extremist at Dominion Voting Systems’ *“I found Eric Coomer [Dominion’s Director of Security and Strategy] had a long history of posting on websites for skinheads. Only these aren’t the neo-Nazis our mothers warned us about. These skinheads call themselves SHARPs, or Skinheads Against Racial Prejudice. Think of them as a sort of punk rock Antifa... Given that Dominion’s Director of Security and Strategy, Eric Coomer, was an enthusiast of a street fighting anti-racist skinhead culture going back at least into the 1990s, it seems very likely that Joe Oltmann was correct in identifying him as the Facebook user recently endorsing Antifa and posting anti-police rhetoric.”*

4. Dominion’s Director of Security and Strategy, Eric Coomer, tells Antifa in September 2020 not to worry, Trump won’t win, “I took care of that”. Think he was joking?

5. “On top of that, former Admiral Peter Neffenger is the Chairman of the Board of Directors of Smartmatic. [the software used in Dominion and other machines] is also on Vice President Joe Biden's transition team, which calls into question his impartiality, which doesn't pass the smell test.”

6. GOP poll watchers were stopped from getting close enough to observe ballots or barred all together from entering counting rooms even with court orders that forbade them from being denied access.

7. Election workers back dating ballots that arrived after November 3rd to say they arrived on November 3rd so they could be counted.

9. Ballots being filled out in van with ‘Biden Harris’ logo on it. *LAS VEGAS, Nevada – A second sworn affidavit from a whistleblower who was an election worker in Clark County, Nevada, claims mail-in ballots were improperly filled out in a Biden-Harris van outside a polling place.*

11. Clark County Nevada had an 89 percent failure rate in catching mismatched signatures when tested by a journalist at the Las Vegas Review Journal.

12. The turnout numbers are odd in battle ground states, like Wisconsin, which hit 89 percent. *“Now, is that figure impossible? No. Wall Street Journal’s Kimberley Strassel did the math, but it’s highly improbable given the turnout rates in the surrounding areas. It would require 900,000 people showing up for same-day registrations.”* <https://townhall.com/tipsheet/mattvespa/2020/11/14/democracy-institute-pollster-yes-i-think-this-election-was-stolen-n2579970>

13. Biden did worse than Hillary in every major city except for swing vote states. *“Trump won the largest non-white vote share for a Republican presidential candidate in 60 years. Biden underperformed Hillary Clinton in every major metro area around the country, save for Milwaukee, Detroit, Atlanta and Philadelphia.”*

<https://townhall.com/tipsheet/mattvespa/2020/11/14/democracy-institute-pollster-yes-i-think-this-election-was-stolen-n2579970>

14. In 2012 Obama won 22% of all counties (689) in the U.S., Biden only won 17% (524) and yet, while underperforming Obama by a large margin, he got 9 million more votes than Obama.

15. *“Biden underperformed Hillary Clinton in every major metro area around the country, save for Milwaukee, Detroit, Atlanta and Philadelphia.”*

<https://townhall.com/tipsheet/mattvespa/2020/11/14/democracy-institute-pollster-yes-i-think-this-election-was-stolen-n2579970>

16. More people voted than were registered in battle ground states. *“Robert Barnes, the foremost election analyst, observes in these “big cities in swing states run by Democrats...the vote even exceeded the number of registered voters.”*

17. Trump's victories in Pennsylvania, Michigan, and Wisconsin were on target until, in the middle of the night, counting was arbitrarily halted. Miraculously, several hundred thousand votes – all for Biden – were mysteriously 'found'; Trump's real leads subsequently vanished.

18. At least 840 voters listed on the state's website as having cast ballots in the election are 101 years old or older. At least 39 of those voters were so old they would have lived through the Civil War, and at least 45 were born sometime in the 1800s:

19. Dead people voting.

20. Ballots found in the trash, ditches, trunks of cars, demisters. In Luzern County Pennsylvania the FBI confirmed that a small number of military ballots were thrown in the trash. They recovered nine ballots but there may have been more. Seven of those ballots were cast for presidential candidate Donald Trump.

21. Spoiled ballots found in garbage bags thrown out by election workers in Bucks County, PA even though they are required by law to retain them for two years.

22. Detroit election workers were trained to stop GOP poll observers from watching the vote count and how to make sure disqualified ballots were counted anyway.

23. McNally v Tollendar. The **Michigan** state court over-turned a recall election

for county office. This case was notable because it established a new (and relevant) exception. Typically, a court can only overturn an election when it's clear that some irregularities caused the election to be decided unfairly. With this case, the court of Michigan decided that **in cases of extreme irregularity the courts can overturn an election without regard to the actual effect of the irregularity.**

24. “The Clark County Commission just threw out an election that represents almost 1/6 of the total votes cast in Clark County because there were too many “discrepancies” to be sure that the results in that election can be certain. 153K votes in this election for Clark County Commission District C race.”

25. “We’re gonna fight em all. Trumpian army has America’s back!” ...sing it as a chant at the next MAGA rally to the tune of ‘Seven Nation Army’ by the White Stripes.
